19th SESSION OF THE GOVERNING COUNCIL OF THE STATISTICAL INSTITUTE FOR ASIA AND THE PACIFIC (GC SIAP)

&

18th MANAGEMENT SEMINAR FOR THE HEAD OF NATIONAL STATISTICAL OFFICES (NSOs) IN ASIA AND THE PACIFIC

- FUNDAMENTAL PRINCIPAL OF OFFICIAL STATISTICS -

"I anticipate that the continuous partnership with UN SIAP will not only enhance the credibility of the data produced but also foster innovation and the adoption of new technologies in statistical processes. This ensures that the statistical system remains current and capable of addressing emerging challenges, thereby facilitating its effective utilisation for economic and social development planning"

YBhg. Dato' Nor Azmie bin Diron
Secretary General,
Ministry of Economy, Malaysia

"Innovative approaches, existing administrative processes and survey exercises can be leveraged to produce data that bridge the gaps and enable SDG monitoring and the creation of evidence based policy and this is where the importance of capacity building of official statistics comes in"

Ms. Armida Salsiah Alisjahbana
Secretary General,
Executive Secretary,
UN Economic Commission for Asia and Pacific

"Malaysia will continue to work with the entire team of the Asia and Pacific statistical community to expand statistical capacity-building programmes and activities to assist member states in improving the quality and availability of statistics, particularly in implementing and monitoring the 2030 Agenda for Sustainable Development and addressing emerging issues"

YBhg. Dato' Sri Dr. Mohd Uzir Mahidin
Chief Statistician Malaysia
Chair of the 18th & 19th Session of the GC SIAP

"The meeting serves as a vital platform for shaping the future of SIAP providing an opportunity for all of us to engage in discussions on how we can collectively advance our initiatives.

SIAP consistently seeks the cooperation of all members and associate members of ESCAP, relying on your continuous support to guide our future work plans. We will be presenting our work plans and financial plans, and we will definitely appreciate your comments and suggestions for improvement should you have any concerns."

Dr. Shailja Sharma
Director, United Nations Statistical Institute for Asia and the Pacific

@StatsMalaysia

2016 - 2030

The participants of the 19th Governing Council of the SIAP, 2023

Malaysia as the Host Country

Malaysia hosted three significant UNSIAP events consecutively from 13th to 15th December 2023 in Kuala Lumpur, namely the 19th Session of the Governing Council of the Statistical Institute for Asia and the Pacific (GC SIAP), the 18th Management Seminar for the Heads of National Statistical Offices (NSOs) in Asia and the Pacific, and the Training of Trainers on the Quality of Statistics for Sustainable Development Goals (SDGs).

Following a vote by Asia Pacific member countries on 24th May 2022 in Bangkok, Malaysia has been appointed as a member of the GC for the term 2022-2024. The Chief Statistician Malaysia, YBhg. Dato' Sri Dr. Mohd Uzir Mahidin attended the 18th GC UNSIAP as a member and was appointed as the Chairman of its session, which took place from December 12 to 15, 2022, in Chiba, Japan. Additionally, Malaysia has been offered the opportunity to host the 19th Session in 2023 in Kuala Lumpur.

Witness a historic moment! The events have brought together 97 delegates from 32 countries from Asia and the Pacific region, along with six international agencies, to Malaysia. This has created a unique opportunity for us to collaborate and positively impact our region.

Organisers

The Department of Statistics Malaysia (DOSM) was established in 1949 under the Statistics Ordinance 1949. DOSM is a premier government agency entrusted with the responsibility of collecting, interpreting, and disseminating the latest and real-time statistics in monitoring national economic performance and social development.

The Statistical Institute for Asia and the Pacific (SIAP) was founded in 1970 in Tokyo as a professional statistical training center for the Asia Pacific region. Initially established under the Japanese Government, in April 1995, it was granted the status of a subsidiary body under the Economic and Social Commission for Asia and the Pacific (ESCAP).

The Economic and Social Commission for Asia and the Pacific (ESCAP) is the intergovernmental organisation for the Asia-Pacific region and promotes cooperation among its 53 member states and nine associate members in pursuit of solutions to sustainable development challenges. ESCAP is one of the five regional commissions of the United Nations. The Statistics Division works to improve the quality of official statistics and the use of data for decision-making in Asia and the Pacific.

The United Nations Statistics Division (UNSD), formerly known as the United Nations Statistical Office, serves under the United Nations Department of Economic and Social Affairs (DESA) as the central mechanism within the Secretariat of the United Nations for the advancement of the global statistical system. The Division compiles and disseminates global statistical information, develops standards and norms for statistical activities and supports countries' efforts to strengthen their national statistical systems. It also facilitates the coordination of international statistical activities and supports the functioning of the United Nations Statistical Commission as the apex entity of the global statistical system.

About

UNSIAP, initially established as the Asian Statistical Institute under the Japanese Government in April 1995, was granted the status of a subsidiary body under ESCAP. The establishment of a GC allowed UNSIAP to contribute to the development of statistical human capital and capacity for the benefit of government employees of member countries at the Asia Pacific level.

Objective GC

GC will convene annually to assess and improve the governance, administrative and financial status of the UNSIAP. Additionally, they will evaluate, adopt and implement UNSIAP's short-term and long-term annual programmes and activities that will benefit the member countries of the Asia Pacific region, aligning with UNSIAP's Strategic Plan for 2021-2025. The ESCAP Executive Secretary will present the report of the GC meeting to the ESCAP Commission during its yearly session.

The Member of the Governing Council of the SIAP, 2022-2024

Membership GC

In accordance with its Statute, the GC consists of a representative designated by the Government of Japan and eight representatives nominated by other members and associate members of ESCAP elected by the Commission. At its seventy-eight session, the Commission elected new members of the GC for the term 2022 to 2024, which are Bangladesh, China, India, Japan (Host Country), Malaysia, Philippines, Republic of Korea, Thailand and Vietnam.

Malaysia as Member

Malaysia was appointed as a member of the GC UNSIAP for 2022-2024 after serving as an observer for ten years. At the 78th Session of the ESCAP Commission in May 2022, Malaysia received a positive vote from member countries in the Asia Pacific region. The Chief Statistician of Malaysia, YBhg. Dato' Sri Dr. Mohd Uzir Mahidin attended the 18th GC UNSIAP as a member and was appointed as the Chairman of its session, which took place from December 12 to 15, 2022, in Chiba, Japan.

19TH SESSION OF THE GOVERNING COUNCIL OF THE STATISTICAL INSTITUTE FOR ASIA AND THE PACIFIC

12 - 13 DECEMBER 2023

Opening Session

The 19th GC SIAP commenced with the opening addresses of:

- Dr. Shailja Sharma, Director, United Nations Statistical Institute for Asia and the Pacific;
- YBhg. Dato' Sri Dr. Mohd Uzir Mahidin, Chief Statistician Malaysia;
- YBhg. Dato' Nor Azmie Diron, Secretary General, Ministry of Economy;
- Ms. Armida Salsiah Alisjahbana, Executive Secretary, UN Economic Commission for Asia and Pacific (Opening Remarks to be pre-recorded and presented at GC)

Facebook Live during Opening Session

TAP TO VIEW

Agenda

The Council considered several issues, including the report of the Director on its achievements in 2023, the proposed work programme and financial plan for 2024, and the formulation of the strategic plan for 2025-2029. The participants made valuable contributions by sharing their views, needs, and innovative ideas to enhance the annual activities and programmes of the UNSIAP. As a result of this productive discussion, the Council adopted the report on December 14, 2023, which reflects the collective efforts of all involved.

Election of Officers

Malaysia was re-elected as the Chair of the 19th GC SIAP, demonstrating trust in its leadership and promoting sustainable growth in the region.

- Chair: Dr. Mohd Uzir Mahidin (Malaysia)
- Vice-Chair: Mr. Noriaki Sato (Japan)

19TH SESSION OF THE GOVERNING COUNCIL OF THE STATISTICAL INSTITUTE FOR ASIA AND THE PACIFIC

Malaysia's Intervention

- Malaysia congratulated the Institute on the number of courses completed in 2023, using multiple methods of delivery. The representative echoed the secretariat's request that all National Statistical Offices (NSOs) respond to the Training Needs Survey (TNS). The representative confirmed the Government of Malaysia's continued support to the Institute in both cash and in-kind contributions and reaffirmed the availability of its training institute. The representative expressed interest in big data-related training courses.
- Malaysia supported the proposed 2024 work and financial plan and pledged continued support. The representative offered contributions in the form of resource persons to support training courses on several subjects such as data science and national accounts. The representative suggested that the Institute consider engaging retired government statisticians as resource persons in training courses.
- Malaysia requested the Institute to organise training on the modernisation of agriculture statistics in Malaysia in line with Malaysia's implementation of the 2024 Agriculture Census.
- Malaysia supported the direction of the formulation of the 2025-2029 strategic plan and recommended that the Friends of Chair (FoC) represent the entire Asia and Pacific region. The representative further suggested that the training needs survey (TNS) can inform the drafting of the 2025-2029 strategic plan; the survey should provide an opportunity for member states to list what kind of contributions they will be able to provide so that this can be reflected in the next strategic plan.

18TH MANAGEMENT SEMINAR (MS) FOR THE HEADS OF NATIONAL STATISTICAL OFFICES IN ASIA AND THE PACIFIC

- FUNDAMENTAL PRINCIPAL OF OFFICIAL STATISTICS (FPOS) -

13 - 14 DECEMBER 2023

About Management Seminar

SIAP organised the Management Seminar back-to-back with GC SIAP every year in collaboration with the Statistics Division of the UNESCAP starting in 2003. **The seminar aims to strengthen the leadership and management capabilities of the heads of NSOs by providing a forum to discuss, exchange views and share experiences.** Each year a different theme is chosen based on current issues to be discussed and explored by the heads of NSOs. This includes sharing best practices and proposing solutions for the development of member countries' statistical systems. **The chosen theme of the seminar for the year 2023 is Fundamental Principles Official Statistics (FPOS).** The seminar will draw on the experience of participants in the areas of data stewardship and data governance.

Objectives

The seminar aims to comprehensively assess the implementation of statistical principles in countries, with a focus on addressing challenges and gaps in adherence. It also seeks to explore the adaptability of these principles within federal or devolved governance systems and address issues within international organisations to ensure full compliance. Furthermore, the programme strives to enhance the knowledge of senior statisticians in Asia and the Pacific regarding the application of these principles, empowering them to identify and address areas where implementation may be lacking. Additionally, the programme aims to understand and provide feedback on proposals for an advisory board, focusing on its structure, report and mandate.

The participants of the 18th Management Seminar for the Heads NSOs in Asia and the Pacific 2023

Fundamental Principles of Official Statistics (FPOS)

The FPOS was first conceived at the end of the 1980s in Eastern and Central Europe. Towards this end, in 1991, the Conference of European Statisticians developed and adopted the FPOS, which was subsequently adopted in 1992 by the Economic Commission for Europe (ECE). The United Nations Statistical Commission (UNSC) adopted these principles in 1994 at the global level. At its 42nd session in 2011, the UNSC acknowledged that the Principles were still relevant and that no revision of the 10 Principles themselves was necessary. The Economic and Social Council (ECOSOC) endorsed the FPOS in 2013; and in January 2014, they were adopted by General Assembly. This recognition at the highest political level underlines that official statistics - reliable and objective information - are crucial for decision-making. The 10 Fundamental Principles that help ensure the trust and credibility of official statistics are:

- Principle 1 : Relevance, impartiality, and equal access
- Principle 2 : Professional standards and ethics
- Principle 3 : Accountability and transparency
- Principle 4 : Prevention of misuse
- Principle 5 : Sources of official statistics
- Principle 6 : Confidentiality
- Principle 7 : Legislation
- Principle 8 : National coordination
- Principle 9 : Use of international standards
- Principle 10 : International cooperation.

TRAINING OF TRAINERS ON QUALITY OF STATISTICS FOR SUSTAINABLE DEVELOPMENT GOALS (SDGs)

MALAYSIAN INSTITUTE TRAINING INSTITUTE (ILSM), PERAK
11 - 13 DECEMBER 2023

Introduction

The 2030 Agenda emphasises the need to improve capacity building to support national plans for achieving sustainable development goals. In line with this, a successful workshop was held in collaboration with SIAP, UNSD, DOSM, the International Monetary Fund's (IMF) Statistics Department, the Director-General for Policy Planning on Statistical Policy, and the Ministry of Internal Affairs and Communications of the Government of Japan.

The purpose of the workshop is to train statisticians from countries in Asia and the Pacific on the quality of statistics required for achieving sustainable development goals (SDGs).

The training has brought together 42 participants from 16 countries including Malaysia.

Objectives

Participants have acquired in-depth knowledge of the core concepts of quality assurance, the United Nations reference national quality assurance framework and the national quality assurance framework (NQAF) implementation. Participants have also been exposed to the quality requirements when using administrative and other data sources, as well as the quality aspects of compiling and disseminating SDG indicators. In addition, this workshop has provided knowledge about the International Monetary Fund's Data Quality Assessment Framework (DQAF) and the enhanced General Data Dissemination System (e-GDDS), which has been enhanced through lectures and hands-on sessions, with the overall goal of strengthening the capacity to produce a set of statistics, including indicators, to track and monitor the SDGs.

SOCIAL & RECREATION ACTIVITIES

SIGHTSEEING TOUR IN KUALA LUMPUR : 13 DECEMBER 2023

In the dynamic cityscape of Kuala Lumpur, DOSM seized an opportunity to engage in social activities, offering participants a delightful experience of exploring the city's sights. Despite the limited time constraints, the participants were guided to iconic spots such as the Central Market and the majestic Petronas Twin Towers, with the hope that everyone had a good time amidst the city's hustle and bustle.

SOCIAL & RECREATION ACTIVITIES

FITDOSM & TREE PLANTING PROGRAMME AT KUALA LUMPUR FOREST-ECO PARK : 14 DECEMBER 2023

DOSM in collaboration with the Forestry Department of Peninsular Malaysia (FDPM) and the Forest Research Institute Malaysia (FRIM), has held a tree-planting programme as a recreational activity together with FitDOSM. The tree-planting activity succeeded in planting 15 saplings. The objective is to create awareness among the public about the importance of maintaining the environment and being fit for a better life.

WELCOMING DINNER

—> COLORS OF MALAYSIA MADANI: MALAYSIA'S DELIGHT 14 DECEMBER 2023

As a welcoming celebration to the delegations from Asia and the Pacific, DOSM held a Welcoming Dinner with the theme of Colors of Malaysia MADANI: Malaysia's Delight with the aromatic spices of *ayam percik*, *kambing kuzi*, and the sweetness of *sago buah* cocktail. All of these are a testament to Malaysia's gastronomic treasures. While delegations enjoy a wide variety of delectable local cuisine, DOSM has invited the PENTARAMA from the Department of Information Malaysia to introduce art, culture and heritage from various ethnicities in Malaysia through singing and dancing.

WELCOMING DINNER

MEDIA STATEMENT

Malaysia hosts the 19th Session of the Governing Council of the Statistical Institute for Asia and the Pacific (UNSIAP) and the 18th Management Seminar for the Heads of National Statistical Offices in Asia and the Pacific:

Malaysia re-elected to be the Chair of the 19th Session of UNSIAP

PUTRAJAYA, 13 December 2023 – Malaysia, represented by the Department of Statistics Malaysia (DOSM), was the Chairman of the 18th Session of the Governing Council of the Statistical Institute for Asia and the Pacific (GC SIAP) in 2022 in Chiba, Japan. Following a vote by Asia Pacific member countries on 24 May 2022 in Bangkok, Malaysia has been appointed as a member of the GC for the term 2022-2024, and has been offered the opportunity to host the 19th Session in 2023 in Kuala Lumpur. The annual GC SIAP meetings play a pivotal role in assessing UNSIAP's governance, financial status, and programme initiatives, aligning with UNSIAP's Strategic Plan for 2021-2025.

According to the Chief Statistician of Malaysia, Dato' Sri Dr. Mohd Uzir Mahidin, "Malaysia is privileged to host the 19th Session of the Governing Council of the Statistical Institute for Asia and the Pacific and the 18th Management Seminar for the Heads of National Statistical Offices in Asia and the Pacific: Fundamental Principles of Official Statistics (FPOS) in Kuala Lumpur. These two events, organised by SIAP, in collaboration with the Statistics Division of the United Nations Economic and Social Commission for Asia and the Pacific (ESCAP), the United Nations Statistics Division (UNSD) and the Department of Statistics Malaysia (DOSM) will serve as a testament to our commitment in promoting global cooperation and the advancement of statistics."

The events were attended by 97 delegates from the member states of Asia and the Pacific regions, which were led by the GC Members from Japan, Bangladesh, China, India, Philippines, the Republic of Korea, Thailand and Viet Nam, alongside representatives from Malaysia. In presence is YBhg. Dato' Nor Azmie bin Diron, Secretary General, Ministry of Economy.

The 19th Session discusses matters arising from the Eighteenth session of the Governing Council including the report of the Director on its achievements in 2023; the proposed work programme and financial plan of the Institute for 2024; and the formulation of the strategic plan for 2025-2029. Meanwhile, the 18th Seminar aims to strengthen the leadership and management capabilities of the heads of National Statistics Offices (NSOs) by providing a forum to discuss, exchange views and share experiences. The seminar also draw on the experience of participants in the areas of data stewardship and data governance.

The Chief Statistician Malaysia added that "A Training of Trainers on Quality of Statistics for Sustainable Development Goals (SDGs) workshop is also held at Malaysia Statistical Training Institute (ILSM), Perak, during the period of 11 – 13 December 2023. The workshop will provide an opportunity for participants to gain in-depth knowledge of core concepts on quality assurance, the United Nations reference national quality assurance framework (NQAF) and the implementation of NQAF. In addition, the workshop will provide knowledge on the International Monetary Fund's Data Quality Assessment Framework (DQAF) and the enhanced General Data Dissemination System (e-GDDS), with the overall aim of strengthening the capacity to produce a set of statistics including indicators, to track and monitor Sustainable Development Goals (SDGs)."

In collaboration with the Forest Research Institute Malaysia and the Forestry Department of Peninsular Malaysia, a tree planting activity will be held on 14 December 2023 following the awareness of participants on the corporate social responsibility towards the environment and nature. This would surely contribute to public awareness on the importance on restoration of forest and preservation of biodiversity, which are priceless national treasures.

By supporting the creation, promotion, and exchange of best practices and knowledge among national, regional, and international statistical communities in order to further the global agenda, DOSM's membership in the GC is important in illustrating Malaysia's international commitments. Malaysia is committed in collaborating with the Asia and Pacific statistical community to enhance statistical capacity-building initiatives and aid member nations in enhancing the statistical support. This includes assisting in the implementation and oversight of the 2030 Agenda for Sustainable Development and tackling new challenges.

DOSM has launched OpenDOSM NextGen as a medium that provides a catalog of data and visualisations to facilitate users' analysis of various data and can be accessed through <https://open.dosm.gov.my>.

The Department of Statistics Malaysia (DOSM) will conduct the Agricultural Census in 2024. Please visit <https://www.myagricensus.gov.my/> for more information. The theme is "Agriculture Census, Key to Agriculture Development".

The Government of Malaysia has declared National Statistics Day (MyStats Day) on October 20th each year. MyStats Day theme is "Statistics is the Essence of Life".

Thank you for your support & guidance!

Part of the Secretariat members for the 19th GC SIAP & 18th MS

On behalf of Malaysia, DOSM extends heartfelt gratitude to UNSIAP, UNESCAP and UNSD for granting us the honour of hosting the 19th Session of the Governing Council of the Statistical Institute for Asia and the Pacific and the 18th Management Seminar for the Heads of National Statistical Offices in Asia and the Pacific: Fundamental Principles of Official Statistics (FPOS) in the city of Kuala Lumpur. Additionally, we hosted the Regional Training of Trainers on Quality of Statistics for Sustainable Development Goals (SDGs) in Sungkai, Perak. These three events were a testament to our unwavering dedication to fostering global cooperation and advancing the field of statistics.

We extend our sincere appreciation to all dedicated delegations who actively participated and lent their support, which contributed significantly to Malaysia's success in hosting these momentous events. Malaysia is truly grateful for the collective commitment and enthusiasm that made this occasion an unforgettable experience.

Let's watch a visual chronicle encapsulating the noteworthy moments from the 19th Session of GC SIAP and the 18th Management Seminar for the Heads of NSOs in Asia and the Pacific!

We, will always live it up

Prechorus

So let us live in solidarity And in the
world arena we'll succeed
It is statistics that will come to be
The reason we will bloom in
harmony

Chorus

Everybody undivided Data's where
our hearts reside in
There will always be a bind
Just like fire that ignites
That's how brightly lit our dreams
are
We'll reach higher than the stars

Sending love to one another
Leaving no one in a slumber
We will stand with unity

Mustering our courage while
Embracing our disparities We'll
achieve our victory
One dream with unity
One love with harmony

Thank You
