STATISTICS ON WOMEN EMPOWERMENT IN SELECTED DOMAINS, MALAYSIA

INTRODUCTION

- Statistics on Women Empowerment in Selected Domains, Malaysia, 2023 presents gender statistics in Malaysia.
- These statistics focus on the core set of gender indicators covering eleven main domains namely economic structures, participation in productive activities and access to resources; education; health and related services, public life and decision making; human rights of women and girls, social protection (special focus: population ageing); disaster risk reduction; peace and security; refugees; environment and climate change; and international migration.
- This publication also highlights Malaysia Gender Gap Index (MGGI) at the national and state levels.

MALAYSIA GENDER GAP INDEX (MGGI) DEFINITION

- MGGI identifies the gap between women and men across four sub-indices encompassing Economic participation and opportunity, Educational attainment, Health and survival, and Political empowerment. A score with a value of 1.0 (100%) indicates the equality of women and men has been achieved.
- This index is prepared based on the methodology from the Global Gender Gap Index (GGGI) published by WEF using data released by the Department of Statistics Malaysia (DOSM) and other agencies in Malaysia. MGGI 2022 comprises four sub-indices and 14 variables.

MALAYSIA GENDER GAP INDEX (MGGI) SCORE 2022

- MGGI showed the score of 0.694, or 69.4 per cent in 2022.
- Women's achievement has surpassed men's in the Educational attainment sub-index with a score of 1.067.
- Health and survival sub-index recorded a score of 0.961, followed by Economic participation and opportunity (score 0.644).
- Political empowerment recorded the lowest score with 0.102, showing women were still lagging behind men in the political arena.
