BASIC AMENITIES SURVEY REPORT, MALAYSIA, 2022

The first edition of the Basic Amenities Survey Report, 2022 is published by the Department of Statistics Malaysia (DOSM) presents statistics on basic amenities such as education, health, housing and household appliances owned by households. The statistics published in this report are based on the findings from the implementation of the Survey of Income, Expenditure and Basic Amenities 2022.

Statistics from this report provide pertinent information used by government agencies as input in the planning, formation and monitoring of national development plans. These statistics also serve as reference source for economists, academicians, private sectors and individuals for more detailed research and analysis purposes.

This report consists three main parts. The first part presents the main findings and a summary of the findings. The second part shows detailed statistics on basic amenities such as education, health, housing and equipment owned by households. Meanwhile, the third part describes technical aspects such as concepts, definitions and survey methodology to facilitate users to better understand the published statistics.

DOSM gratefully acknowledges the cooperation rendered by all parties who have contributed directly and indirectly in realising this publication. Every feedback and suggestions from all parties towards improving this report in the future are highly appreciated.
