Current account balance

Malaysia's current account surplus narrowed to RM7.6 billion from RM11.5 billion in the previous quarter. This was due to larger deficit in Services account which mainly caused by a slower performance in travel activities and widening deficit in Primary Income as a result of higher dividend earned by foreign companies. Nevertheless, Goods account continued to record a higher surplus.

In 2019, the current account surplus hit the highest value of RM49.7 billion since 2012 (RM50.2 billion) despite turned downward in the second half of the year. The favourable performance was contributed by higher surplus in goods account at RM125.5 billion and smaller deficit in services account at RM10.9 billion.

Financial account in this quarter recorded a lower net outflow of RM0.6 billion against RM1.3 billion in last quarter, primarily due to lower outflow in portfolio investment.

Foreign Direct Investment (FDI) expanded to RM3.7 billion from RM2.9 billion in the previous quarter. The FDI was mainly from Singapore, Ireland and Hong Kong. On the other hand, Direct Investment Abroad (DIA) lessen to RM1.5 billion from RM3.7 billion in preceding quarter. The main destinations of DIA was Brazil,

Singapore and United States of America.

The financial liabilities position in this quarter rose to RM1,823.1 billion against RM1,778.1 billion in the previous quarter. At the same time, the total assets slightly increased to RM1,775.8 billion from RM1,765.1 billion in last quarter. This translated to the higher net liabilities of RM47.3 billion as at end of fourth quarter 2019.

The international reserves of Bank Negara Malaysia stood at RM424.1 billion as compared to RM431.2 billion in last quarter.
