

SOCIAL STATISTICS BULLETIN, MALAYSIA, 2016

INTRODUCTION

Social Statistics Bulletin, Malaysia, 2016 presents selected social statistics as the basic indicators for measuring the quality of life and well-being of the population at the national and state level. The main areas covered are population, housing, health, education, employment, social services, public safety and communication & recreation. Selected social statistics on health, education and public safety are highlighted as follows:

A) HEALTH

Doctor to Population Ratio

The number of doctors increased from 45,565 (2014) to 46,491 persons in 2015. This showed an increase of 2.0 per cent compared to 2014. Doctor to population ratio for 2015 was 671 persons compared to 674 persons in 2014.

Dentist to Population Ratio

In 2015, the number of dentists showed an increase of 8.4 per cent from 5,888 persons in 2014 to 6,384 persons. However, dentist to population ratio decreased from 5,215 persons (2014) to 4,885 persons (2015).
